

MARQUETTE COUNTY SHARPS AND MEDICATION DISPOSAL

Sharps Disposal

A used sharp disposal program has been implemented in the Marquette County area. This program allows you to bring your used syringes, lancets and other sharps to the locations listed below. There is NO charge for the disposal of your used syringes or sharps, but they must be brought to the store in a sealed container. If you use a clear 2-liter pop bottle, please remove the label, and make a small pressure release slice in the bottle.

SHARPS DISPOSAL LOCATIONS

Snyder Drugs
110 S. Main, Ishpeming 486-4405

Snyder Drugs
130 E. State Highway, Gwinn 346-0104

Snyder Drugs
1330 US 41 W., Ishpeming 485-5592

Campus Pharmacy
1015 N. Third, Marquette 225-5911

Medication Disposal

When flushed down the drain, unwanted medicines pollute our waters. Wastewater treatment plants are not equipped to properly filter the medications, causing irreversible damage to aquatic life such as behavioral changes and/or decreased fertility rates. There is an alternative. You can bring your unused medication to any of the following locations for safe disposal.
